During the transition between fee schedules, the amount due for renewal of a real estate license will be determined by the license expiration date, not the date of payment or receipt of paperwork. Determination of the fee for all other applications will be based on the date the application is received by the Division or by the postmark if the application is sent via mail or other type of delivery service.

The fee changes were included in HB1 – Ohio’s biennial budget bill – approved by the legislature and signed into law by Governor Strickland on July 17, 2009.
